

December 2023

As we complete this 2023 year, I want you to have a copy of our latest brochures updating our sixth decade that we have just completed. At the same time, I want to thank you for your role in making all of this possible. Together we have created what many people refer to as the largest independent record company in the country that is not distributed by one of the three majors.

It's been an interesting experience for me because all the accomplishments in these brochures have occurred after I reached normal retirement age. In addition to the exciting things that have occurred during the past decade in music and sports, I think we should all be proud of what our Foundation and our charitable projects have meant to so many people in our state and in our country.

I hope that you have a great Christmas and a Happy New Year, and we're looking forward to starting our seventh decade.

Thanks,
